

BRAND IDENTITY SYSTEM / VERSION 1.0

■ Strategy-to-Execution Bridge

Story, logo system, colour, typography, voice and application guidance.

21 SEPTEMBER 2026

APPROVED CREATIVE DIRECTION

WHY THIS IDENTITY EXISTS

Closing the space between a sound decision and change that works.

Transformation rarely fails because organisations lack ambition. It fails in the space between strategy and execution - where decisions, technology, delivery and adoption are allowed to separate.

HACEY Global exists to close that space. We begin with the real challenge, make the critical decisions visible, and stay with the work until the organisation can sustain the change itself.

SHORT STORY

HACEY Global bridges the distance between a good decision and durable change.

We connect strategy, technology, delivery and adoption so organisations can implement confidently and retain the capability to keep improving.

MAKE COMPLEX TRANSFORMATION WORK IN PRACTICE.

ANATOMY

A bridge built from intent, action and realised value.

01 Strategic intent

Evidence, ambition, priorities and the decisions that define a credible direction.

02 The HACEY intervention

The Lime connector is the high-value decision, product increment or mechanism that turns intent into coordinated action.

03 Operational reality

Systems, people, implementation, adoption and measurable outcomes.

04 Open capability

The centre remains open: collaboration is visible and the capability stays inside the client organisation.

DEFAULT LOGO

Primary horizontal lockup

Use this version for websites, proposals, presentations, reports and general corporate communication. It is the default HACEY Global signature.

PREFERRED BACKGROUND

Warm Ivory or White

APPROVED FAMILY

One identity, four application modes.

**REVERSED**

Dark covers and approved Ink surfaces

**ONE COLOUR**

Restricted printing, stamps and embroidery

**EMBLEM ONLY**

Favicons, avatars, app tiles and small formats

**STACKED**

Square and narrow applications

CLEAR SPACE AND SCALE

Protect recognition before adding visual density.

**180 px / 32 mm**

Horizontal lockup

150 px / 28 mm

Stacked lockup

24 px / 6 mm

Emblem only

1.5x

Co-branding separation

CORE PALETTE

Authority, depth and one decisive signal.

Recommended balance: 65-75% light neutrals, 20-30% Ink and Teal, 5-10% Signal Lime.

- Use Ink on Warm Ivory, Warm Paper or White for body copy.
- Use Ink text on Signal Lime; never use white text on Lime.
- Do not communicate status through colour alone.
- Validate new digital combinations against WCAG 2.2 AA.

FONT INSTRUCTION

Geist carries the message. The logo remains artwork.

Geist

Primary sans-serif

Use for headlines, body copy, navigation, buttons, tables and interface controls.

400 Regular / 500 Medium / 600 SemiBold / 700 Bold

IBM Plex Mono

TECHNICAL ACCENT

Use for stages, categories, metadata, eyebrow labels and technical annotations.

Do not use for paragraphs, large headlines or whole tables.

WORDMARK RULE

Never recreate or approximate the HACEY GLOBAL wordmark with live type. Always use an approved logo asset. Supporting typography is not a substitute for the logo lettering.

HIERARCHY

A direct editorial scale with visible decisions.

Make complex transformation work in practice.

DISPLAY / H1 - GEIST SEMIBOLD 600

One accountable path from decision to durable change.

H2 - GEIST SEMIBOLD 600

Use clear sentences and specific nouns. Long-form copy should feel calm, measured and easy to scan, with generous leading and restrained line length.

BODY - GEIST REGULAR 400

03 / DELIVERY EVIDENCE / REVIEWED 21 SEP 2026

H1	64-90 px	0.98
H2	44-60 px	1.03
H3	24-30 px	1.15
BODY	16-18 px	1.62
LABEL	11-12 px	1.00

FROM MARK TO SYSTEM

Paired structures. Visible connections. Open systems.

01

Paired structures

Place strategy and implementation, current and target, or risk and response in deliberate relationship.

02

Connection points

Use one Lime square, node or short rule to signal the decision that links them.

03

Open systems

Use whitespace, visible grids and incomplete frames instead of closed decorative containers.

HOW HACEY SOUNDS

Calm around complexity. Direct about the work.

01 Intelligent, not performative

02 Direct, not abrupt

03 Collaborative, with accountability

04 Practical, without losing ambition

05 Responsible, without hiding in policy

MESSAGE ARCHITECTURE

MASTER Make complex transformation work in practice.

SUPPORT One accountable path from decision to durable change.

PROOF Strategy, technology, delivery and adoption stay connected.

ACTION Bring us the challenge, not a predetermined solution.

DEPLOYMENT GUIDANCE

Choose the lockup for the space, not personal preference.

WEB	Primary horizontal	Header on Warm Ivory; emblem for favicon and compact mobile states.
REPORTS	Primary or reversed	Light cover: primary. Ink cover: reversed. One-colour for internal pages and stamps.
PRESENTATIONS	Full + emblem	Full lockup on opening and closing slides; emblem as a quiet footer identifier.
SOCIAL	Emblem + stacked	Emblem for avatars; stacked or horizontal for banners with safe crop margins.
CO-BRANDING	Primary or mono	Match optical height, keep 1.5x separation and use a neutral divider when needed.

 Signal Lime identifies the action or connection - it does not become the whole page.

PROTECT THE SYSTEM

Consistency creates recognition.

**DO NOT RETYPE**

Never recreate the wordmark with live type.

**DO NOT DISTORT**

Do not stretch, compress, rotate or skew.

**DO NOT RECOLOUR**

Do not move or recolour the connector independently.

**DO NOT DECORATE**

No outlines, glows, bevels, shadows or unapproved gradients.

**DO NOT CONTAIN**

Do not place the mark in an arbitrary badge or shape.

**DO NOT CROWD**

Keep text, rules, icons and partner marks outside clear space.

PRODUCTION AND OWNERSHIP

Treat the selected mark as a system with an accountable owner.

- Commission a precise SVG, EPS and PDF vector reconstruction before registration, manufacturing or large-format use.
- Complete a professional trademark search in the intended jurisdictions and service classes.
- Maintain one controlled master asset and export approved files from it.
- Brand owner approves exceptions, new colourways and co-branding.
- Digital owner verifies accessibility, responsive sizing and metadata.

ASSET REGISTER

- Primary horizontal
- Reversed navy
- One-colour navy
